

# Protect

# Protect

The Protect glazed screen has always been a popular product amongst our clients in the science and technology fields where a sterile working environment is often needed.

## Straight line linking

Two inline links supplied with each screen.

## Flat edge finish

The linking connectors can be hidden inside the frame.

## Junction post

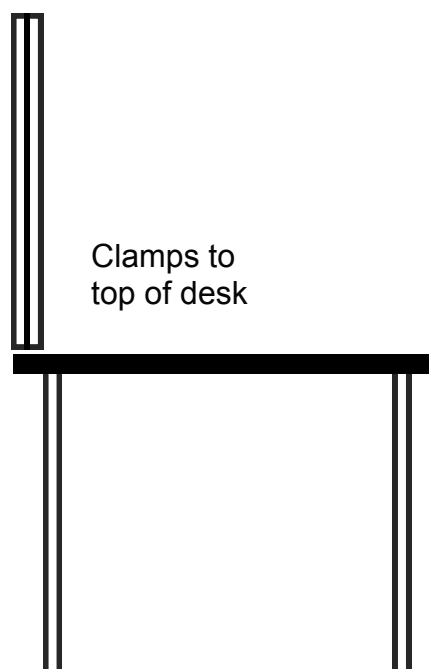

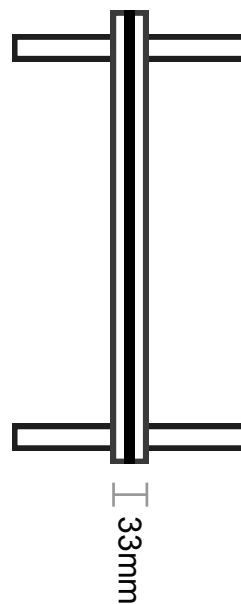

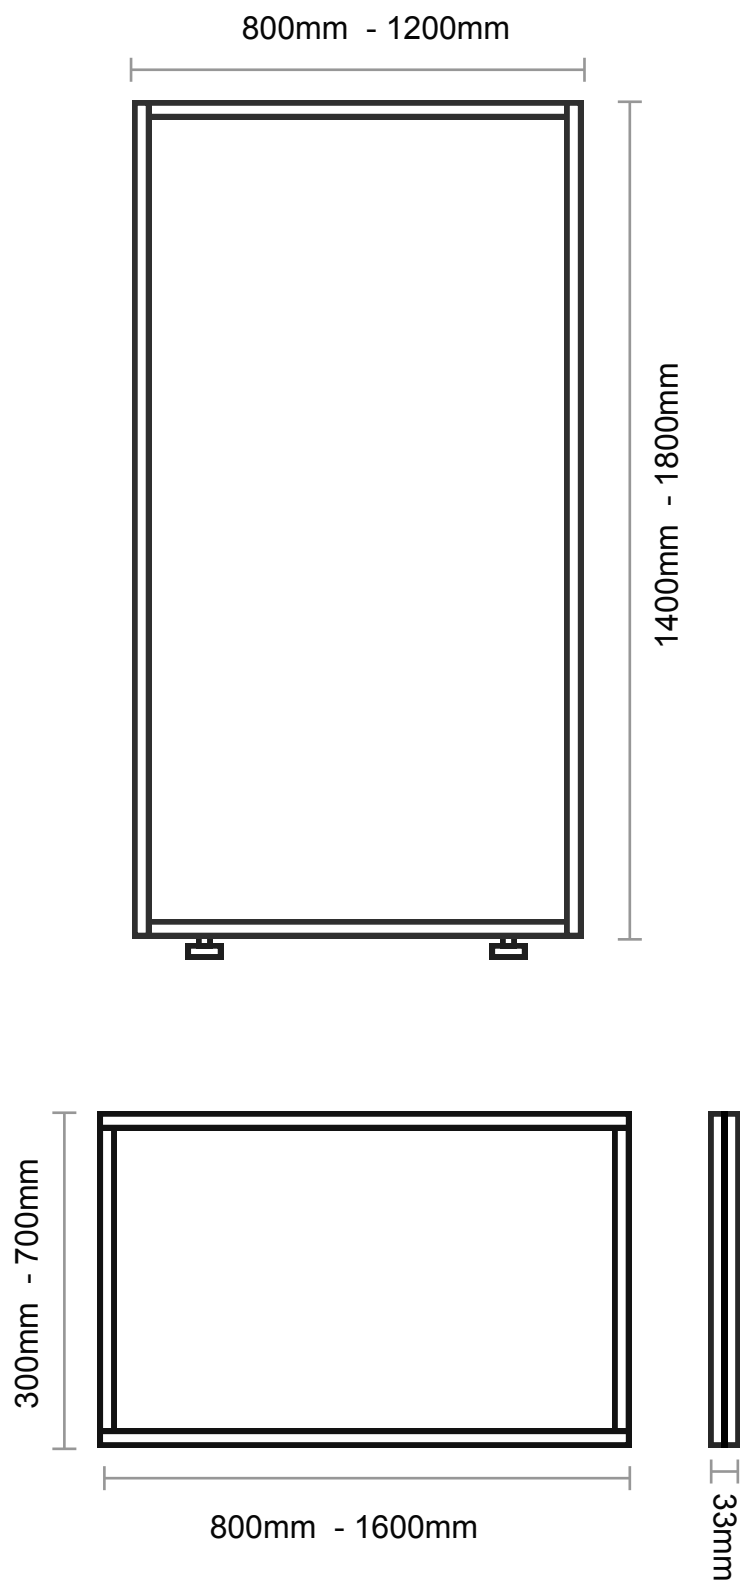

2 way/3 way/4 way and 120 degree.

## Ideal for any office

The screens are available with a clear glass or acrylic finish at no extra cost. The frame is made from aluminium and comes in a white or grey finish. The screens come freestanding but have the ability to be linked inline as a standard. If they need to be linked at angle this can be done with the addition of junction posts.

# Technical information

## Screens specifications

The screens versatility means they are ideal for standard office environments, as well as training spaces, call centres and healthcare spaces also. The screens are super easy and quick to set up and clean!

- Aluminium frame
- Grey or White finish
- 33mm thick framed screen
